Executive Summary

The yearbook 2023-2024 has been developed to present a comprehensive analysis of the Indian Non-Life Insurance Market to the stakeholders in the industry, keeping with the traditions of the previous year's yearbooks.

Each chapter of the yearbook has been specifically organized to focus on different aspects of the Indian non-life insurance industry - covering macro-economic and insurance indicators, state-wise penetration and density, Industry Business Highlights, Segment wise Business Highlights, Underwriting results and Reinsurance. The annexures include data tables and information on the working of the companies.

The Yearbook has been developed with sources of data available within the GI Council, Non-life Insurance Industry players, and the Regulator. Economic data has been sourced from RBI and various government sources.

A close study of the performance since 2014-15 discloses that the Non-Life Insurance Insurers have maintained steady growth in all facets of performance over the years. Economic growth of the country, expansion of the associated industries, increasing purchasing power of the middle-class, a growing young working population, increase in number of vehicles, better infrastructure, growth in health awareness and preventive healthcare are encouraging indicators for the Non-Life Insurance industry for a positive future trend.

The Yearbook also highlights the status of Non-life Insurance penetration in the country in the form of heat maps and gives claims data state-wise. The heat maps show a panoramic view of how the Non-Life Insurance penetration has improved during the last 10 years. Additionally, a brief summary of the key findings of each section's investigation is included in every chapter.

The salient features of the non-life industry for the year 2023-24 were:

- The current fiscal year 2023-24 experienced a GDPI growth of 12.40%.
- In terms of distribution, brokers have emerged as the largest contributors to GDPI, with their business growing at a faster pace in recent years compared to other major channels such as Agents and Direct sales.
- - Health and Personal Accident insurance premiums have experienced significant growth this year, emerging as the leading contributors to GDPI from a product perspective.
- - Recruitment has started increasing again, the total employee number in 2023-24 stands at 179,207. The industry absorbed 16,301 new personnel in the current fiscal year.
- The industry has increasingly invested in the social and infrastructure sector over the last decade. This year the amount invested is ₹ 1,06,359 Cr.

D...

Key parameters and comparisons:

Macro-economic

- Insurance penetration (as a percentage) at current prices rose from 0.68 in 2014-15 to 0.98 in 2023-24. It increased consistently from 2014-15 to 2020-21, surpassing the 1% mark in 2020-21, but experienced a decline in 2021-22.
- Insurance density nearly tripled from ₹ 657 in 2014-15 to ₹ 2,009 in 2023-24. This year, it climbed from ₹ 1,798 recorded the previous year.

Industry Growth and Capital Leverage

- Gross Direct Premium Income (GDPI) in India has increased from ₹ 84,686 Crores in 2014-15 to ₹ 2,89,673 Crores in 2023-24.
- The Yield on Investment stands at 8.94%, reflecting a slight increase compared to the previous year.
- Capital employed has increased from ₹ 48,774 Crores in 2014-15 to ₹ 1,04,279 Crores in 2023-24, while Investments have almost quadrupled from ₹ 1,39,887 Crores in 2014-15 to ₹ 5,18,759 Crores in 2023-24.

Operational Parameters

- Number of Insurance offices increased from 2014-15 till 2018-19, after that the growth plateaued. In 2023-24, the number of offices rose to 10,376, up from 9,928 in 2022-23.
- Number of policies issued has increased from 12.60 Crores in 2014-15 to 33.40 Crores in 2023-24. The growth has been 10.57% over the previous year.
- Overall net retention ratio has decreased slightly from 73.9% in FY 22-23 to 73.4% in FY 23-24.

Executive Summary

Class- Mix

- Health and accident insurance accounts for the highest share of GDPI at 40.3% increase from 38.0% of the previous year, closely followed by Motor Insurance at 31.7%. Health and accident segment has also been growing at the highest rate, with a CAGR of 19.5% over the period 2014-15 to 2023-24. Crop insurance is also an important segment contributing majority premiums in Other Misc.
- In the fiscal year 2023–24, the Gross Incurred Claims ratio stood at 73.0%, while the Net Incurred Claims ratio reached 82.50%.

Underwriting Results

- Underwriting deficit has increased this year, reversing the trend of the last three years, with the increase in claims. It is (₹ 28,587) Cr in 2023-24 from (₹ 33,154) Cr of the previous year.
- Specialised Insurers showed successful underwriting results in FY 2023–2024. Thus, specialised insurance has experienced growth and profitability.
- There was an overall profit (after tax) for the industry for the current financial year amounting to ₹ 10,664 Cr as compared to profit after tax of (₹ 1,949) Cr in the previous year.

Conclusion

In conclusion, the Non-Life Insurance industry continues to show maturity and resilience over the last 10 years despite facing many operational challenges, since the removal of tariffs. The industry players are well poised to take advantage of the favorable business climate emerging from various Government initiatives to tap the huge untapped potential in the Indian markets in the years to come. The Industry will continue to become a more important part of the Country's economic and social fabric. With Government initiatives in various sectors, the Industry seeks to create value and tap potential with increasingly better reach, technology, infrastructure, education and awareness.

Analysis of Nat Cat Claims

01

Macro-economic & Insurance Indicators

- India's economy continued to expand, with GDP growth reaching 8.40% (at current price) in FY 2023-24. This growth was driven by factors such as strong domestic consumption and a robust industrial sector.
- The Indian general insurance industry also experienced significant growth, with premium income increasing by 12.40% year-over-year. Over the past decade, the industry has seen a compound annual growth rate (CAGR) of 15.70%.
- Insurance penetration in India increased slightly from 0.94% in FY 2022-23 to 0.98% in FY 2023-24.
- Insurance density has almost tripled over the past decade, reflecting a surge in consumer demand and the need for insurance products.
- Overall, India's economy and insurance sector have both demonstrated growth trends in recent years. This is a positive sign for the country's long-term economic development and financial stability.

Note: Population figures taken from Census and associated publications. 2023-24 figures are provisional.
Rate of exchange from RBI are as on 31st March of the respective year.

02

Statewise Penetration & Density

- The national premium income has grown by 12.40% in the fiscal year 2023-24. The top five states collectively contribute over ₹1,54,000 crore to the premium income for FY 2023-24, accounting for more than half of the country's total premium earnings.
- Among the states ranked top 10 according to the amount of premium earned, states with most significant increase in premium income with respect to the previous year are, Gujarat(22%), Karnataka(22%) Delhi(17%),Telangana(17%) and, Maharashtra (16%).
- 14 States/Union Territories each contributed over ₹ 5,000 Cr. of premium income in FY 2023-24
- The number of insurance offices grew steadily from 2013-14 to 2018-19, after which the growth rate stabilized. However, FY 2023-24 saw a notable overall increase of approximately 4.50%.

Industry Business Highlights

- Total Gross Direct Premium Income (India & Abroad) stood at ₹ 2,92,712 Crores, a 12.40% growth from FY 2023-24.
- The share of Gross Direct Premium Income via Brokers has grown by approximately 34.7% over the previous year.
- Net commissions also exhibited continued uptrends, with growth figures reaching approximately 10%.
- FY 2023-24 has seen a significant increase in claims. This has affected profitability. Gross Incurred Claims ratio increased to 73.0% for the current financial year as against 71.1% in the previous year.
- Industry Investment Incomes have also posted continued growth:
 1. Investment income pertaining to policyholders was ₹ 35,242 Crores in FY 2023-24, representing a CAGR of around 12.3% p.a over a 10-year period.
 2. Investment income pertaining to shareholders was ₹ 8,678 Crores in FY 2023-24, representing a CAGR of 7.9% p.a. over a 10-year period.

Industry Business Highlights

This chapter provides an overview of the Non-Life Insurance industry's performance from 2014-15 through 2023-24.

The Non-Life Insurers have maintained a steady growth, maintained Solvency margins and saw variations in profitability despite many challenges faced by them during the last 10 years including impact of the Covid pandemic. Market competition dominated all lines of business other than mandated Motor Third Party Insurance since April 2007.

Health Insurance has emerged as a significant portfolio accounting for almost one-third of the market share. Health & Accident Insurance segment has grown to ₹ 1,08,911 Crores at a CAGR of 19.90% over the period 2014-15 to 2023-24.

Motor Insurance including Third party cover has a share of more than 30% of the total premium. Uninsured vehicles are the cause of concern, and it is expected that the new Motor Vehicle act will act as a catalyst to bring more uninsured vehicles in the insurance industry

Table 3.1.1 Number of Insurers as on 31st March 2024

General Insurers	Standalone Health	Specialized	Reinsurance
25	5	2	12

Industry Business Dimensions

Since the opening up of the Non-Life Insurance Industry in 2001, the industry has witnessed a substantial improvement in operational efficiency, along with a many-fold increase in Premium underwritten.

There is a significant increase in the number of policies issued by the Industry post covid

Chart 3.2.1 Policies Issued

Source: Council Compilation as per source data submitted by companies

Claims handled have risen notably across all categories of insurers in the fiscal year 2023-24, accompanied by an increase in the claims incidence ratio.

Chart 3.2.2 Claims Handled*

Source: For 2013-14 onwards, Form 6 of 1-X being sent by companies to IRDAI
For prior years, NL24/25 of public disclosures of companies

* **Claims Handled** = Opening Balance of Claims Outstanding as at April 1st of each year + Claims Reported during that financial year

Note: Incidence Ratio is derived as Claims Handled/Policies Issued

The current year, has seen an increase in the number of offices as compared to the previous year.

Chart 3.2.3 Number of Offices

Source: Council Compilation as per source data submitted by companies

Post covid the insurance industry has seen an increase in the employee count.

Chart 3.2.4 Employee Count

Source: Council Compilation as per source data submitted by companies

Distribution Channels

One of the discerning features of the post privatization of the sector is the emergence of multiple but regulated distributed channels, distinct from only Agents and Employees developing in the business during the prior nationalized sector.

Brokers and Corporate Agents (including Bancassurance models) have established their credentials as Insurance Intermediaries. The authority has also enabled several distribution channels such as Common Service Centres of Govt. Of India, Insurance Marketing Firms, Banks as Brokers, an open architecture for Agents and corporate Agents. These Channels of distributions would increase insurance awareness and penetration in the semi-urban and rural areas of the country.

Note: Corporate Agents share in above charts includes business through Bancassurance channels

Premium

Gross Direct Premium (GDPI)

India's Non-Life Insurance Industry has achieved a CAGR of 14.60% over the period from 2014-15 to 2023-24. Premium income has seen significant growth, rising from ₹84,686 Crores in 2014-15 to ₹2,89,673 Crores in 2023-24. The Health and Motor segments continue to be the primary drivers of this premium growth.

Chart 3.4.1 Gross Direct Premium Income - Indian Business

Source: Council Compilation as per source data submitted by companies

In the financial year 2023-24, the growth rate has been recorded at 12.40%.

Commission

Chart 3.5.1 Gross & Net Commission

*Note: GDP includes India and Abroad

Source: Council Compilation as per source data submitted by companies

The Gross Commission rose from ₹5,295 crores in 2014-15 to ₹40,300 crores in 2023-24. Gross Commission as a percentage of GDP is 13.9% in 2023-24 as compared to 8% in 2022-23. The reason for this significant increase in commission is the change in the EOM& commission regulations brought about by IRDAI last year, increasing the limit of commission and expenses paid upto 30% of the premium received

The increase in the rates of commission as allowed by IRDAI(referred to previous graph above) in the commission.. regulations resulted in the increase in the commission payouts of all channels of intermediaries.

Chart 3.5.2 Gross Commission Channelwise

Source: Public Disclosure data (NL6 of companies)
Note: Corporate Agents share in above charts includes business through Bancassurance channels

Expenses of Management

A probable reason for the decline in the expense of management as compare to the previous year could be due to the change in the regulations brought out by IRDAI regarding the expense of management.

Chart 3.6.1 Expenses of Management

Source: IRDAI Annual Reports for prior years and Financial Highlights of GI Council

As per IRDAI (Expenses of Management) Regulations for non-life and health companies, amounts incurred as Expenses of management over and above the prescribed limits have to be borne by the Shareholders. As compared to the previous year the amount incurred by the shareholder have come down significantly

Chart 3.6.2 Policyholder Expenses borne by Shareholders

Source: IRDAI Reports & Council Compilation as per source data submitted by companies

Return on Capital Employed (RoCE)

RoCE (Return on capital employed) has been fluctuating over the period 2014-2024 due to the following reasons: deteriorating claims ratios in Personal lines, effect of natural disasters over the past 5-6 years, effect of accumulations in individual portfolios. Despite increase in Motor TP rates and rise in shareholder investment incomes, the return on capital employed measured (by Profit after tax/Capital & Free Reserves) is 10.2% in 2023-24 as compared to 9.6% in 2014-15. However, the ratio has improved substantially as compared to the previous year due to better performance by the industry including PSU insurance companies.

Chart 3.16.1 Return on Capital employed - 10 Year trend

Chart 4.11.3 Rural vs Urban Premium - Other Miscellaneous

Source: Council Compilation as per source data submitted by companies

Across all classes except Marine Hull, and Export Credit, the Net Incurred Claim ratio exceeds the Gross Incurred Claim ratio. This discrepancy may be attributed to factors such as attritional losses retained on the net account, higher deductibles set for XL cover, and inadequate pricing of the risks insured.

Ageing Analysis – Paid Claims

Undermentioned is paid claims segment wise analysis. Motor Overall, Health & Accident claims which are of short-term duration constitute majority of paid claims for 2023-24.

Prudent Capital Leverage

The Capital Leverage ratio indicates the extent to which the Capital Employed (defined as equity and free reserves) is leveraged for domestic insurance business. The Capital Leverage ratio is calculated for both the Gross Premium (GWP/Capital employed) and Net Premium (NWP/Capital employed) levels.

The Non-life industry has exercised caution in its capital leverage, with the Gross Written Premium being approximately 2.88 times the Capital and Free Reserves (Net Worth). Based on Net Premium, it stands at 2.12 times the capital as of 31st March 2024.

Note: Capital employed denotes paid up capital and free reserves including carried forward losses from the financial year 2021 onwards

Analysis of catastrophic claims

119

Setup for data analysis

Two perils that occurred up to March 31, 2024, along with the states where they took place, have been considered for analysis

- Cyclone Biparjoy occurred in Gujarat, India, making landfall near the Jakhau Port in Kutch district in June 2023
- Cyclone Michuang made landfall in Andhra Pradesh, India, on December 5, 2023

Table 6.1.1a DISTRICTWISE CLAIMS FOR BIPARJOY (Gujarat)

From Charts 6.1.1a to 6.2.1 the following information is derived for the year 2023-24 with respect to the catastrophic claims

- Cyclone Biparjoy brought heavy rainfall, flooding, and strong winds to Gujarat and Rajasthan, causing disruptions in these states. Gujarat's coastal regions suffered significant damage, while Rajasthan experienced waterlogging and agricultural losses. In response, the insurance industry has processed 3,134 claims, providing ₹348.78 crore in settlements to aid recovery.

Statewise reported vs settled claims (Numbers)

Source : Compiled by GI Council as per the data shared by the member companies

From Charts 6.3.1a to 6.3.2 the following information is derived for the year 2023-24 with respect to the catastrophic claims

- Cyclone Michaung unleashed torrential rainfall, severe flooding, and powerful winds across Andhra Pradesh and Tamil Nadu, resulting in extensive infrastructure damage and major disruptions to transportation networks. The cyclone's impact was particularly severe in urban and coastal areas. Despite these challenges, the insurance industry has played a crucial role in recovery efforts by settling 33,492 claims and disbursing ₹589 crore in compensation.

Caveats

The Indian Non-Life Insurance Industry Yearbook 2023-24 is in its eleventh edition. The endeavour has been to reflect industry trends for various stakeholders. This Yearbook maybe read keeping in view the following caveats:

1. Definitions of Terms Used:

The specific definition of various Non-Life industry business parameter terms used in this Yearbook 2023-24 are as per existing IRDAI Guidelines (Extract reproduced for ready reference).

As per IRDAI Master Circular on preparation of Financial Statements – General Insurance Business, October 2012 and corrigendum dated 3rd July, 2013:

- i. **Gross Direct Premium** : Premium booked directly from the Insured/Policyholders excluding the service tax element thereon;
- ii. **Gross Written Premium** : Gross Direct Premium plus Inward Reinsurance Premium accepted during the period (Direct Premium plus Premium on reinsurance accepted);
- iii. **Net Premium / Net Written Premium / Net Retained Premium** : Gross Written Premium less premium on reinsurances ceded (Retention of the insurer after considering all types of reinsurances);
- iv. **Net Earned Premium** : Net Premium after adjustment for movement in the Reserves for Unexpired Risks in any given Accounting period;
- v. **Gross Incurred Claims** : Gross Claims paid plus gross movement in claims outstanding (including gross IBNR/IBNER). This includes claims relating to both Direct and Reinsurance accepted.
Gross Incurred Claims = Gross Claims paid (both Direct and Reinsurance Accepted) + Gross Claims outstanding at the end of the period (both Direct and Reinsurance accepted)
- vi. **Net Incurred Claims** : Net Claims after accounting for recovery of claims from reinsurers. This includes net claims relating to both Direct and Reinsurance accepted.
Explanation: **Net Incurred Claims** = Net Claims paid (Gross Claims paid less reinsurance recoveries of claims) PLUS Net Claims outstanding at the end of the period (both direct and reinsurance accepted) LESS Net Claims outstanding at the beginning of the period (both direct and reinsurance accepted). Net outstanding claims include Net IBNR/IBNER.
Combined Ratio : Net Incurred Claims/ Net Earned Premium PLUS Expenses of Management (including
- vii. Net Commission)/ Net Written Premium.

2. The other terms used in this Yearbook which are not part of the above list, carry the meanings as used in common business parlance in the Indian Non-life Insurance Industry context.

3. Data Sources

Insurance Regulatory and Development Authority of India – Annual Reports 2015-16 and prior years from 2007-08 onwards.

- 1.Planning Commission Archives regarding GDP Current prices and GDP annual growth rate from Niti Aayog website and SDP Data for states wherever made available on the PRS India website.
- 2.Gross State Domestic Product (GSDP) at current prices wherever made available mostly from secondary sources of data.
- 3.Handbook of Statistics on Indian Economy, RBI 2023-24.
- 4.Growth rates of GDP at factor cost (at 2004-05 prices & 2011-12 prices) from RBI website.
- 5.Public disclosures of non-life insurance companies as of 31st March 2024.
- 6.Data collected and collated by the General Insurance Council as of 31st March 2024, (referred to as Council Compilation)
- 7.Ten-year data of premiums, commissions, and claims obtained from all the member companies (except GIC Re) and collated;
- 8.Rural premiums have been collated from premium figures sent by member companies to IRDAI monthly;
- 9.Analysis of paid claims and outstanding claims as of 31.3.2024 has been attempted through collating figures sent by member companies to IRDAI (Form 6 of Form I-X);
- 10.The heat-maps data have also been taken from the IRDAI (Form I-X) submitted by member companies.
11. In the absence of the latest census ,figures has been maintained as per census 2011
12. SDP figures have been accounted for at current price levels.

4. Financial figures are in ₹Crores, where ₹ 1 Crore = ₹ 10 Million

5. Disclaimer & Copyrights

The Yearbook 2023-24 has been made to reflect trends in the Non-Life Insurance Industry in India. The aim is to provide the user with an understanding of the workings of the Non – Life Insurance Industry. The data and analysis forming part of the Yearbook should be considered for information purposes only. The factual correctness of the data has been sought to be ensured by using publicly available information as reported in IRDAI annual reports, non-life insurance company public disclosures, and annual reports and data reported to the General Insurance Council as per designated formats. Different sources of data have been used for segment-wise, state-wise as well as consolidated GDPI charts. It is observed that there are minor differences between the data contained in these sources which could be due to inconsistencies in reporting data or timing differences. Users may please take note of this while making use of tables and charts in this Yearbook.

The macro-economic data has been primarily taken from the publicly available information on the erstwhile planning commission archives/RBI/Ministry of Finance and other secondary sources of data.
